

FOR IMMEDIATE RELEASE

Ontario School Board simplifies data capture & analysis of formative assessment data.

StudentsAchieve software enables Bruce Grey C.D.S.B to customize their formative data capture and data analysis for teachers and administrators.

June 30, 2009, Hanover, ON Canada – Bruce Grey C.D.S.B. licensed StudentsAchieve to overcome challenges in providing their educators with meaningful and timely reports that affect student outcomes. Prior to this solution, I.T. struggled to capture data provided by teachers and then turn it into effective, timely reports.

Catherine Montreuil, Superintendent of Education at Bruce Grey commented, “We are excited to have a tool where teachers can manage their student data in real-time. They can make immediate decisions with respect to the best instructional techniques and can quickly change class and school resources to meet student learning needs.”

“As my awareness of StudentsAchieve grew,” stated Derrick Farewell, Bruce Grey’s Research and Systems Analyst, “I saw great promise in how it improves data collection and data analysis. Our administration would enjoy the added benefit of the provision of Instructional Strategies directly to teachers.”

Derrick went on to say, “The choice was made easier by hearing real-life testimonials from Districts utilizing StudentsAchieve in conjunction with the same Student Information System and Data Warehouse solutions as Bruce Grey. Their willingness to share with us such things as instructional strategies coupled with the broader collaboration of the Ontario and National StudentsAchieve User Groups ensures our success.” Bruce Grey C.D.S.B. began the customization of data capture for their formative assessments over the summer. This is the first step in using StudentsAchieve to capture a variety of formative assessments, all in a timely and more effective manner.

“Bruce Grey is passionate about this upgrade” explains Andrew Foster, Account Manager – Eastern Canada for StudentsAchieve. “Assessment collection and reporting capabilities are pivotal to their student support growth. This is an important investment for Bruce Grey and they have certainly done their homework.”

In licensing StudentsAchieve, Bruce Grey C.D.S.B. teachers and students benefit through ease of assessment data collection leading to immediate reporting that can affect student outcomes in real-time.
